

Testlinks:

This PDF contains a links.

## 1. WEBSITE LINKS

When the link is clicked, user should get to the website that is linked.

When generating a PDF of that website (through button inside website, or using our own website Button) a PDF is generated and user is shown this Pdf in the usual way.

### **Internal Testlink:**

[https://biz-links-be.ch/spip.php?page=webapp\\_tests](https://biz-links-be.ch/spip.php?page=webapp_tests)

[Named Link \(same as above\)](#)

### **External Testlink:**

<https://www.berufsberatung.ch/dyn/show/69619>

(Expand accordion to access more PDFs, or use small printer icon top right to simulate window.print() )

## 2. DOCUMENT LINKS

When the link contains a link to another PDF/File, the file needs to be downloaded and uploaded like other PDFs that are linked/downloaded.
